

FACOM 1261H.820SR - 9100g Non-Sparking
Sledge Hammer

1261H.820SR

DESCRIPTION

FACOM 1261H.820SR - Non-Sparking Sledge Hammer

Features

Special non sparking and anti-magnetic Copper-Beryllium alloy

For safety purposes FACOM uses wooden handles to prevent any risk of sparks

This is not the case of certain bi-material plastic handles

To avoid any risk of sparks the design of the hammer heads is specific without sharp edges

FACOM has determined the composition of the Cu-Be alloy as well as its specific treatment according to the use of each tool

In addition to its non sparking properties the Cu-Be alloy is also anti-magnetic and highly corrosion resistant

Having a lower density it also significantly reduces user fatigue

FACOM ADF tools have been designed in accordance with the most widely used dimensional

standards or adapted to perform the tools main functions
