

## FACOM U.89JMA - Multi Diameter Fork Set

U.89JMA

### DESCRIPTION

#### FACOM U.89JMA - Multi Diameter Fork Set

##### Features

Offset forks - grip the spring at the end of the coil this increasing the compressors effective travel  
This shape of fork is particularly effective for use on new-generation springs having a small number of coils

A hinged joint at the connection to the compressor allows the fork to be aligned with the slope of the coil

New design fork fits directly onto the springs for quick installation

Suitable for 100 - 215mm springs

Compatible with all U.89 bodies without modification
