

FACOM 779.CL5PB - 600Lm Traceable
Rechargeable LED Inspection Lamp

779.CL5PB

DESCRIPTION

FACOM 779.CL5PB - 600Lm Traceable Rechargeable LED Inspection Lamp

Features

High performance

Normal 6.5h constant lighting (300 lumen / 400 lux at 0.5 m)

Boost 3.5h constant lighting (600 lumen / 700 lux at 0.5 m)

Robust design - impact-resistant casing (IK08)

Resistant to workshop solvents and common chemical products and being immersed in water (IP67)

Alarm is triggered when the battery charge level is low avoiding the risk of the user leaving the light behind after a repair

First product in a series of smart connected professional automotive tools as part of the FACOM Garage of the Future initiative

Unique rotating base allows the light to be angled precisely in awkward or limited spaces for maximum flexibility

Versatile design allows up to six lights to be used together at any one time thanks to multiple frequency channels
