

FACOM SXL.171PB - 1/2" Square Drive  
Extendable Hinged Locking Head Ratchet Handle

SXL.171PB

## DESCRIPTION

FACOM SXL.171PB - 1/2" Square Drive Extendable Hinged Locking Head Ratchet Handle

### Features

- 2 in 1 extendable ratchet
- Standard use and easy storage in closed position
- More torque - less effort and maximum accessibility when used extended
- Total length 304 to 437 mm
- 8 settings positions with secured extension mechanism
- 180° hinged head and socket locking - allows to keep position with an already engaged socket
- Extended lifetime whatever the working conditions
- No service needed - dust proof
- 72 teeth mechanism for 5° increments
- Socket locking system - prevents tools loss in machines
- Ring reversing - easy to use even with a gloved hand. Allows viewing rotating direction

Hand palm system allows pressing the head while tightening avoiding accidental reversal of rotating direction

Ultra compact head

Bi material elastomer handle - high resistance to abrasion and solvents in the most severe conditions

FME compatible hanging system

Satin chrome finish
